• If the entry in column 13 is "Heavy Rainfall" enter "1" in column 2, otherwise enter "0".  
• If the "Highest Thunder Frequency" (last column) is 10 or less, enter "0" in column 13.  
• If the "Highest Thunder Frequency" (last column) is 11 or more, enter "1" in column 13.  
The "Highest Thunder Frequency" (last column) should be half as large as the "Highest Rainfall" (column 13).  
The entries in column 13 are required by the U.S. Weather Bureau.  
For present applications, consider only one year's data for each location.  
Remember all need forecasting and estimating the complete picture of the weather situation.  
Enter the name of the location in the first column of the table.
